

ANYTAPE

COMPANY PROFILE

Packaging made simple.

Manufacturing & sourcing

Packaging supplies for Australian growers, packhouses, food producers and warehouse operations.

AUSTRALIAN SERVICE. INTERNATIONAL CAPABILITY.

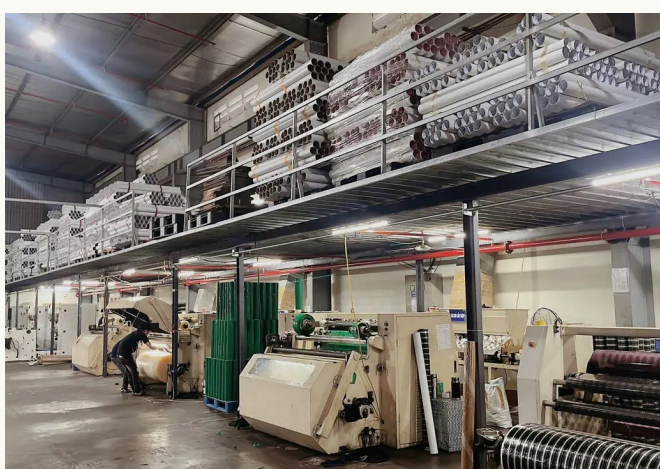

A packaging brand supplied by JCorp Trading Pty Ltd.

sales@anytape.com.au

anytape.com.au

Local understanding. Global capability.

JCorp Trading Pty Ltd supplies ANYTAPE in Australia, connecting customers with Group JCA's manufacturing bases in Korea and Vietnam and its international network of locally operated businesses.

Tape manufacturing within the Group JCA network.

Your Australian team

Warehouse support in Brisbane and Melbourne helps connect international production with local supply. Your Australian team remains your point of contact for specifications, sourcing and repeat orders.

Stock availability and delivery timing are confirmed for your location.

From requirement to repeat supply.

Manufacturing access

Custom dimensions, colours and material properties through TPU and TPE extrusion. Tape converting, slitting and rewinding for application-specific formats.

Sourcing & development

An established supplier network for materials and finished products, with custom printing, private-label packaging and options beyond the standard range.

Local supply support

Market knowledge, inventory and distribution support through locally based teams and warehouses across the Group JCA network.

INDUSTRIES WE SUPPORT

Fresh produce & agriculture / Food manufacturing
Warehousing & distribution

International reach. Local connections.

Through Group JCA's international network, ANYTAPE connects Australian customers with manufacturing, sourcing and regional supply support.

Need another specification? Ask about custom sizes, printing and sourcing.

Confidence in your supply.

Choose the right specification, review the relevant documentation and plan your next order with our Australian team.

PRODUCT & FACTORY DOCUMENTATION

SGS Eco Product

Certification for listed TPU tapes and bands.

OEKO-TEX STANDARD 100

Selected TPU products meet Product Class I requirements for harmful substances.

Global Recycled Standard

Manufacturing partner certification covers listed recycled materials and manufacturing processes.

Higg FEM & FSLM

Environmental verification (2025) and social/labour verification (2026) at manufacturing partner Elon Vina.

Independent material testing

Selected TPU band and OPP tape samples have RoHS restricted-substance testing. TPU band documentation includes tests referencing US FDA food-contact requirements.

WORKING WITH ANYTAPE

01 Tell us what you need

Share the application, current product or sample, quantity and delivery postcode.

02 Confirm the right fit

Discuss dimensions, material, colour, printing and any documentation you require.

03 Plan your supply

Confirm the specification, quote, availability and delivery timing for your order.

Credentials and testing apply to specified products, materials or facilities. Ask for supporting documents and confirm coverage for your application.

Let's talk packaging.
